braving the erotic field in the psychoanalytic treatment of adolescents and children is a groundbreaking collection of chapters by an international group of analytic authors the book addresses the general lack of psychoanalytic writing on working with erotic feelings in the consulting room when treating children and adolescents this lack is doubly odd given freud s emphasis on childhood sexuality as well as the intensities of the adolescent body mind this book takes the view that the subtle interchange of feelings dreams narratives and images that arise when erotic feelings are in the fore is better conceptualized as an erotic field than with the binary of transference countertransference in contemporary psychoanalysis the idea that transference love offers the possibility of knowing the other in the deepest possible way is supplanting an attitude of suspicion clinical work with small children to late adolescents will be offered including gay and gender fluid adolescents this book makes a decisive contribution to assist clinicians to brave the erotic field with children and adolescents

although research on the diagnosis and treatment of depression in children and

adolescents has lagged far behind that in adults recent large scale studies armed with operationalized criteria and validated assessment instruments have done much to close this gap in the many faces of depression in children and adolescents Drs Shaffer and Waslick lead a distinguished group of contributors in presenting an overview of the key findings and concepts emerging from recent empirical efforts to understand the cause of depressive illness in youth featured are the following current findings regarding the epidemiology diagnosis and treatment of depression in childhood and adolescence results of major clinical trials evaluating outpatient psychotherapeutic interventions for depressed and suicidal children and adolescents e g cognitive behavior therapy and interpersonal psychotherapy for depressed children and adolescents dialectical behavior therapy for suicidal youth state of the art principles of pharmacotherapy for acute continuation and maintenance treatment phases of major depressive disorder in children and adolescents dilemmas and challenges related to the diagnosis of bipolar disorder in children current knowledge regarding the epidemiology and clinical manifestations of and the etiological risk factors for suicidal ideation suicide attempts and completed suicide developments in the emerging field of youth suicide prevention an invaluable compendium of current thought on a disorder whose potential consequences can be nothing short of devastating this volume belongs on the bookshelf of every clinician who treats children and adolescents

Moore dispels the myths that rural life does not contain urban problems such as poor parenting and substance abuse while its economy depends on farming or mineral extraction the realities and recent changes in rural life mean that social services must adapt to the needs of the rural communities

this is a comprehensive volume on issues and concerns relating to child and adolescent mental health in Asia which includes contributions from experts in child psychiatry from Asia and other parts of the world the chapters provide accurate and detailed accounts of the current state of knowledge integrating research approaches and findings from clinical studies each chapter discusses existing information emphasizes areas of growth and provides fresh insights on a particular topic especially as these might relate to Asian populations the book integrates various clinical and scientific perspectives on psychiatric disorders in children and adolescents with a focus on Asia the various sections deal with important topics in child and adolescent psychiatry the current understanding of mental disorders and the ways in which possible influences might work in the development of

psychopathology substance use disorders their neurobiological correlates and implications for the developing brain early environmental influences in the psychopathology of psychiatric disorders in children issues of parenting child rearing and cultural practices in asia which influence personality development and adaptation life long impact of early parental loss early diagnosis and intervention in recognizing and treating psychopathology psychopharmacology of neurodevelopmental disorders in children non pharmacological treatments for children mental health gap and telepsychiatry as an innovative model to provide services for children and a pressing need for a comprehensive child mental health policy across nations

learn to choose interventions based on the client s developmental stage teenagers are often a strain on families and they can pose difficulties even in a family therapy setting developmental systemic family therapy with adolescents integrates research and theory about adolescent development with different approaches to family therapy by matching the adolescent client s developmental stage and particular issues with the most effective therapeutic approach this book enables family therapists to tailor their treatment plan to meet each family s unique needs developmental systemic family therapy with adolescents contains special chapters on such serious teen problems as suicide and alcohol substance abuse as well as thoughtful consideration of such normal issues of development as cognitive stages identity development and self esteem interpersonal relationships are also considered including parenting peers and attachment issues this essential resource offers family therapists suggestions on how to make sessions more relevant to clients who engage in risky sexual behavior abuse alcohol and drugs or run away from home each chapter includes detailed down to earth discussions of case examples common presenting problems assessment and treatment issues therapy process dynamics suggestions for developmentally appropriate interventions developmental systemic family therapy with adolescents examines emotional and cognitive development in adolescents to help therapists improve communication and devise effective methods of treatment its well balanced pragmatic approach to therapy will help you properly assess your clients and offer them the services they need in a form they can accept

filled with practical and effective approaches this book is an asset to anyone wanting to develop their skills in working with adolescents samantha best camhs manager and clinical nurse specialist this publication is a further invaluable resource to counsellors wanting to

work with young people it offers a one stop shop for any practitioner who wants to understand adolescent development and the need for a counselling approach that parallels this with helpful strategies for enhancing the counselling conversation and the relationship between counsellor and the young person barbara rayment director of youth access london providing an excellent introduction to counselling young people that is theoretically sound and rich in delivering practical techniques this book is an important addition to the personal library of counselling students and counsellors associate professor sylvia rodger university of queensland st lucia queensland australia in this third edition of their bestselling text kathryn and david geldard provide a practical introduction to the principles and practices required for successful counselling to show that working with young people can be both challenging and effective the book is divided into three main parts covering how to understand the young client as a person the pro active approach of working with young people the counselling skills and strategies needed this third edition has been completely revised and updated and includes two new chapters the first maintaining a collaborative relationship identifies ways to engage a young person collaboratively throughout a proactive counselling process the other professional and ethical issues deals with these issues as they relate to working with young people additional practical case studies and examples show how counsellors can work pro actively with this age group the book will be of particular interest as a textbook and resource to all professionals who work with emotionally disturbed young people and will provide an excellent resource for trainees in courses on counselling social work psychology occupational therapy mental health and psychiatry nursing and education

group therapy with children and adolescents explores a major treatment modality often used with adult populations but rarely considered for child and adolescent treatments with contributions from experts in the united states and abroad this book looks at the effectiveness in both treatment and cost of group therapy as it applies to these particular age groups as psychiatric techniques have evolved many varieties of group therapies have been developed and applied to child and adolescent psychiatry included in this book is an in depth discussion not only of the theory and practice of group psychotherapy as used with children and adolescents but also of the many varieties that have evolved as clinicians have sought new ways of tackling old problems include are chapters on adolescents with eating disorders suicidal adolescents and adolescents with drug problems inpatient outpatient education oriented and more traditional groups are all considered

latina os are currently the largest minority population in the united states they are also one of the fastest growing yet we have very limited research and understanding of their sexualities instead stereotypical images flourish even though scholars have challenged the validity and narrowness of these images and the lack of attention to the larger social context gathering the latest empirical work in the social and behavioral sciences this reader offers us a critical lens through which to understand these images and the social context framing latina os and their sexualities situated at the juncture of latina o studies and sexualities studies latina o sexualities provides a single resource that addresses the current state of knowledge from a multidisciplinary perspective contributors synthesize and critique the literature and carve a separate space where issues of latina o sexualities can be explored given the limitations of prevalent research models this work compels the current wave in sexuality studies to be more inclusive of ethnic minorities and sets an agenda that policy makers and researchers will find invaluable

evidence based cbt for anxiety and depression in children and adolescents this should be on the bookshelf of everyone treating anxious and depressed children and adolescents a cornucopia of theory and clinical good sense alike i will be making sure that my trainees read it cover to cover dr samantha cartwright hatton senior clinical research fellow in psychology university of sussex this is the first book to offer an explicitly competencies based approach to the cognitive behavioral treatment of anxiety and depression in children and adolescents within it an outstanding and influential set of experts in the field describe a comprehensive model of therapist competencies required for empirically supported cognitive behavioral treatment they explore each of these competencies in great detail and highlight effective ways of training them as a result the book not only supports the training development and assessment of competent clinicians who are implementing cbt it is also invaluable for clinicians who wish to gain an understanding of the competencies they need to acquire or improve and offers guidelines for how to achieve these providing a benchmark against which they can assess themselves evidence based cbt for anxiety and depression in children and adolescents works to improve the quality of therapists working in this area and as a result the quality of treatment that many young people receive

this is a comprehensive textbook on child and adolescent psychotherapy it is suitable for students at graduate postgraduate and advanced undergraduate levels it will also serve to inform experienced practitioners about the latest developments in the field bringing

together concepts and methods from psychodynamic behavioural cognitive and developmental perspectives it provides an integrative conceptual model and therapeutic approach for conducting psychotherapy with children and adolescents troubled by a wide range of psychological and cognitive difficulties including adhd and learning disorders the integrated model and rationale described seeks to stimulate students and experienced clinicians alike to step out of the present day conceptually segregated world of psychotherapy and into a world of psychotherapy unbounded by narrow theoretical orientations

many children and adolescents face developmental or situational difficulties in areas where they live most of their meaningful experiences at home at school and in the community while adults who struggle with life events and stressors may look to professional help young individuals are quite alone in coping with these situations perhaps unsurprisingly most children and adolescents typically do not seek such help and often resist it when offered author zipora shechtman has written this detailed text advocating group counseling and psychotherapy as a viable means of addressing these issues if we are to ensure the psychological wellness of children in society group counseling and psychotherapy with children and adolescents is arranged in four parts its chapters explore topics including who needs group counseling and psychotherapy therapeutic factors in children s groups activities in the group pre group planning and forming a group and how to enhance emotional experiencing and group support this text is a principal source of information for counseling psychology students researchers and practitioners working with young people in addition to social workers teachers and parents
